

SIDE SEAL

WHAT IS IT FOR

Latest generation continuous sealer high speed (30 m/min) which replaces the classic sealing system L-sealing

ADVANTAGES

suitable for packaging long products: sealing area 800 mm x infinite (height up to 360 mm)

TECHNICAL DATA

Electrical power supply	V	230 1 Ph
Type of supply		electrical connection
Maximum power	Kw	3
Hourly production	pc/h	0-2400
Useful sealing bar dimensions	mm	infinite x 850
Maximum product dimensions*	mm	700 x 360 x unlimited w
Maximum roll dimensions	mm	Ø 350 x 1000
Infeed belt height	mm	870
Machine dimensions (open cover)	mm	2762 x 2350 x h. 1925

WHAT IS IT FOR

ADVANTAGES

EXCLUSIVE ELECTRICAL CONNECTION

It involves operation of the machine

No compressed air system Less maintenance, less noise, less consumption

without any pneumatic connection

PRESA NV, Brusselsesteenweg 558, 3090 Overijse, Belgium Tel.: +32 2 657 02 22 E-mail: marketing@presa.com Web: www.presatendeur.eu

BRUSHLESS MOTORS WITH SERVOMOTOR (all Schneider Electric)

WHAT IS IT FOR

It replaces the pneumatic movement of the sealing unit or other motorised components

ADVANTAGES

With respect to the pneumatic power supply it assures higher precision in sealing and high productivity (up to 100 pc /min)

A HIGH PROFILE PARTNER

MINIPACK TORRE has chosen Schneider **ELECTRIC** as global partner for the electrical and electronic part of its automatic machines.

SCHNEIDER ELECTRIC'S international character is a synonym of reliability. Users of MINIPACK TORRE machines know they can always rely on - in addition to reliable and technologically advanced products - a widespread and efficient support and spare parts service on 5 continents, that cuts servicing costs and time.

Schneider

ATTENTION TO SAFETY

- Machine protected by a cover with operator safety guard also including infeed and outfeed belt and roll support
- Opening hatches fitted with safety microswitch
- Control logic with operator safety
- Visible and acoustic machine stop alarm signal

EFFICIENCY IN SEALING

- New Side Seal group activated by brushless motor
- Sealing blade movement with stepper motor
- Automatic cross bar height may be set to the mm
- Double sealing temperature adjustment, both on longitudinal bar and on Side seal
- Sealing time and force adjustment (min/medium/max)

PRATIKA 80MPSCONTINUOUS SEALING AT MAXIMUM DIMENSIONS

Electric kissing belts device (optional)

products

• Piece counter (day/life) and package length detection

Option to package individual packages or sets of

PRATIKA 80 MPS: the code indicates the Side Seal device, continuous sealing which does not **TECHNICAL FEATURES** involve limits in length, to package up to 4, 5, 6 metres. As well as being fitted with the Center Sealing this new version of the machine - suitable to package large formats up to 800 mm Schneider Electric M258 PLC with 256 customisable and named wide x360 mm high, has been enhanced with high technological, mechanical and electronic programs contents. **PRATIKA 80 MPS** today represents a perfect synthesis of reliability, high performance, versatility and safety, by which the way of conceiving automatic packaging machines with Colour touch-screen control panel, 5.7 inch, 10 languages heat-shrink film evolves one more time. "Made in Italy with an international heart": all automatic MINIPACK-TORRE machines are entirely 2 Dual Core microprocessors (like 4) 2 x 32 bit produced in the company's production facilities, but within them beats the heart of electrical USB Communication interface and electronic components from a multinational like SCHNEIDER ELECTRIC.

ABSOLUTE FUNCTIONALITY

- Roll insertion at the rear

- Electronic cycle counter
- switching on

- Remote support (optional)
- Description of problem solution
- Remote control (optional)

EASE OF USE

- Lit working area
- Machine on adjustable wheels and feet • Levelling spirit level
- servicina
- utilisation mode

Fitted with weights to adjust film tensioning High technology vertical photocell

General automatic and function control upon

PRATIKA 80 MPS

The most appreciated model in the new range of **MINIPACK-TORRE** automatic packaging machines

- Continuous sealing system
- "Center Sealing" adjustable sealing device
- Schneider Electric Brushless Servomotor
- Control logic by Schneider Electric PLC
- Electric power supply, no pneumatic connection needed
- Reduced energy consumption
- CE Regulations Compliance

- Front and rear opening for easy access and
- Personalised operator/maintenance technician

MAXIMUM PRODUCT DIMENSIONS

Heiaht 360 mm Width 700 mm x Unlimited length

HOURLY PRODUCTION

0-2400 pc/h (depending on film and product)

USABLE FILM

Polyolefins and Polyethylene, with cross bar for Polyethylene (optional)

Schneider Electric brushless motor Drive

Signalling of roll and film opening roller positioning on the set product height

Micro-perforation device with film tensioning adjustment on the set product height

New closed loop sealing bar actuation frame which balances efforts and makes motion smoother

Self-adjustment of triangle and bar height on the set product heiaht

Sealing bar opening defined by product height, which may be set on the touch-screen control panel

Belt speed (infeed/outfeed) adjusted by programmable Schneider Electric inverter model Altivar

Electronic port (infeed/outfeed) for interfacing with supplementary unloading and loading belts

Standard belts compliant with the strictest regulations in force in the food sector (FDA) and completely antistatic

Full waste winder warning electronic device

Possibility to match a heatshrink tunnel
